Authentication: Firebase Authentication, Clerk

Tools & Others: Git, GitHub, VS Code, Stripe, Axios, React Router DOM

Currently Learning: Next.js, TypeScript

Interpersonal Skills

Self-Motivated Learner, Detail-Oriented, Problem Solver

PROJECTS

KrishiLink – Farmer's Growth & Connection Platform

A modern agricultural networking platform connecting farmers, traders, and buyers in one digital space — enabling crop listings, interest requests, and direct connections.

Live: <https://fir-krishi-project.web.app> | **Client:** [GitHub](#)

- Firebase email/password and Google Sign-In with protected private routes
- Full CRUD for crop listings — add, update, delete, and browse all crops with search
- Interest request system with automatic price calculation and duplicate prevention
- Fully responsive UI with Tailwind CSS, DaisyUI, and Swiper for seamless UX

BloodBridge – Blood Donation Application

A MERN stack web platform connecting blood donors with recipients through role-based dashboards (Admin, Volunteer, Donor) with secure authentication and payment integration.

Live: <https://blood-donar-client.web.app> | **Client:** [GitHub](#) | **Server:** [GitHub](#)

- Role-based dashboards for Admin, Volunteer, and Donor with specific permissions per role
- Donor can create, edit, delete, and track blood donation requests with filtering and pagination
- Admin manages all users (block/unblock, role change) and views statistics across the platform
- Stripe payment integration for funding with full transaction history on dashboards

EDUCATION

Bachelor of Social Science (BSS) (Honours) — National University, Bangladesh

2024 – Present (2nd Year Running)

LANGUAGE

Bengali — Native or Bilingual Proficiency | **English** — Elementary Proficiency
